

## *Railways to Zion*

The town I live in is not too obig  
Big enough to get sick of it  
Too many people with no joy for life  
Not knowing that this place should be paradise

Preventing danger ist the main occupation  
Technical achievements replaced human relations  
We make use of our freedom to chose a chanel on tv  
Stare into the flickering screen, sharing the narcotic dream

How does it come that all the people I meet every morning on my way to work  
Are completely out of contact and they seem to be so lonely, sad and hurt  
Hey you brother understand, hey you sister take my hand  
Let's go and search fort he promise land

*Railways to Zion  
I keep walking on  
Jump on the next train from babylon  
I'm just a nomad  
Searching for some peace  
For me and my friends and my family*

Police knocking at my door  
Asking what these pipes are for  
Telling me I'm breaking laws, cite me to the county court  
I didn't ever ask them for

As they leave jehovah's witnesses appear  
Announcing something like the end is near  
And kingdome come is not form e  
For I am lacking fear of god and modesty

First thing my children learn in school  
Is how to feel like stupid fools  
The program is started, there's no place for new ideas  
And all they're bringing is more loose wheels in the gear

*Railways to Zion  
I keep walking on  
Jump on the next train from babylon  
I'm just a nomad  
Searching for some peace  
For me and my friends and my family*

I know we will live  
In a land of peace, love and harmony  
That's why all this hopelessness here  
Can't do no harm to me

A culture of bliss  
Is what we will grow  
And all gods children  
Living in the flow

We'll get to a life  
How it was meant to be  
Everything is possible  
Nothing has to be

Mother nature  
Gives us everything we need  
Until we forget about things  
Like envy, distrust or greed

Give me strenght and courage to walk on  
May this road not be too long

*Railways to Zion  
I keep walking on  
Jump on the next train from babylon  
I'm just a nomad  
Searching for some peace  
For me and my friends and my family*
