

Vibes

Oh my dear brother – all good fortune to you
Like no other you bring me in tune
You help me grow and you get me high
When darkness surrounds me you switch on my lights

And when I go wrong you take me by my hands
Oh praise the lord I found a friend

There's something we breathe in right from the atmosphere
Coming from somewhere, getting in here
Through our hearts, through our arms,
through our fingers into our guitars
So we keep moving in electric magnet range
Feeling so familiar while feeling so strange

Let's strike em up now
The time is right
A dance of rejoicing for our beloved tribe

...vibes...

Once again you remind me of what we can do
You bring me back my positive mental attitude
I felt disconnected but now clearly I see
All the people around me swinging in the same frequency

A look in their eyes tells me that if we work together
And if we believe we can change this world for the better
